MEMORANDUM FOR: Director of Security

SUBJECT : Office of Security Monthly Report of Trends and Highlights for September 1975

1. The Office of Security Personnel Development Program was submitted to the DD/A Career Management Officer for consolidation into an overall DD/A program. The program includes a listing of expected vacant executive level positions (GS-15 through GS-17) for FY 1976 through FY 1978; a roster of candidates for executive level development (GS-13 through GS-15) with projected assignments and training; and, a listing of training completed by OS careerists during FY 1975.

2. The Special Security Center conducted an exhaustive review of Agency documents to determine what might have been source material for three news items designated as classified leaks. This research served as the basis for a Security Committee report to the United States Intelligence Board.

3. On very short notice, the DCI called a press conference attended by a large number of news media representatives. This was the first news conference ever held by the DCI at the Headquarters Building. A large team of security officers was assembled to render security support. The program was executed smoothly and without incident.
